

Amazon Associates

Al Latina

Sept. 13, 2018

This Chairman must report that the FFGC Amazon Associates Program continues to struggle in attracting members, relatives, and friends to purchase items from amazon.com through FFGC's website.

Since March 2018 a total of \$521.65 has been paid to FFGC. This is very low considering the purchasing power of those who would otherwise use this method to buy items from Amazon.

Perhaps with a change of Chairmanship which will take place under the next Administration, promotion will be more successful.

Summary:

The amount of funds generated from FFGC's Amazon Associates Program remains rather minimal. The thought is that a new Chairman in the next Administration will better promote the program.
